**Q1 What are the strengths and weaknesses of your teaching assistant (discussion section leader, lab section leader, grader, or other assistant) as an instructor, and how might his or her teaching be improved?**

- He illustrates things very clearly and is highly devoted to this class.
  - This guy put the team on his back. If it wasn't for him I would probably have failed this class. His teaching could be improved by firing the professor and letting Evan teach the class.
  - He runs weekly recitations and goes over homework promptly. Very nice person and gives tips on preparing for exams. He did make some minor mistakes in concepts, but doesn't harm in overall since this is a challenging class for most people.
  - Evan was one of the most responsible and competent TAs. Always clear in explaining things, responsive to emails. He held extra office hours and review sessions before exams that were extremely helpful. Couldn't have survived this course without him.
